Mr. Larry Rosenmann  
New York State Department of Environmental Conservation  
Division of Solid and Hazardous Materials  
625 Broadway, 8<sup>th</sup> Floor  
Albany, New York 12233-7252

Dear Larry:

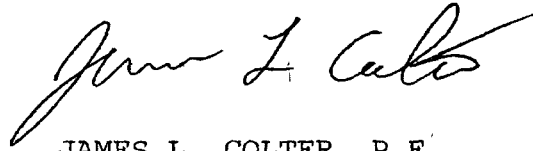

Subj: Data Summary Report for Installation Restoration (IR) Site 6A -  
Fuel Calibration Area and Southern Area; Naval Weapons Industrial  
Reserve Plant (NWIRP) Calverton, New York

The Navy is forwarding the enclosed Data Summary Report for your information. This Data Summary Report includes analytical data that was generated from field investigations conducted at Installation Restoration (IR) Site 6A - Fuel Calibration Area and the Southern Area located at the former Naval Weapons Industrial Reserve Plant (NWIRP) Calverton, New York.

The Navy's environmental consultant, Tetra Tech NUS (TtNUS), conducted an evaluation of the data and their conclusions are contained within the Data Summary Report. Additionally, those conclusions were presented at two Restoration Advisory Board (RAB) meetings held in April and August 2005. The comments generated at the RAB meetings have been incorporated into the enclosed document. As a result, it has been determined that the data gaps that this fieldwork effort was to address, have been filled and that there is now sufficient information available to proceed towards the development of feasibility studies for both on-site and off-site groundwater contamination associated with these sites.

If you have any questions regarding the enclosed Data Summary Report, please contact me at (610) 595-0567, extension 163 or by email at james.colter@navy.mil.

Sincerely,

JAMES L. COLTER, P.E.  
Remedial Project Manager  
By direction of the  
Commanding Officer
